USDA Proposes Grade Loan Rates for 1978 Crop Dark Tobacco - Proposed schedules of loan rates for firecured, and Virginia sun-cured tobacco were announced today by Ray Fitzgerald, administrator of the Agricultural Stabilization and Conservation Service (ASCS).

The proposed schedules are based on average levels of support of 84.6 cents per pound for fire-cured and 75.2 cents per pound for Virginia sun-cured tobacco. These levels of support are about 6.3 percent more than the 1977 levels.

The proposed rates vary as to tobacco quality and range from 59 to 120 cents per pound for Virginia fire-cured type 21, and from 37 to 100 cents per pound for Virginia sun-cured. The proposed rates exceed the 1977 crop rates from 1 to 10 cents per pound for type 21, and from 1 to 10 cents per pound for type 37.

The cooperative association through which advances are available on Virginia fire-cured type 21 and Virginia sun-cured type 37 will be authorized to deduct one cent per pound to apply against overhead costs.

Comments regarding the proposed rates will be considered if submitted in writing by Nov. 27 to the acting director, price support and loan division, ASCS, U. S. Department of Agriculture, P.O. Box 2415, Washington, D.C. 20013. The comments will be available for public inspection in room 3741 of the department's South building during regular business hours (8:15 a.m. to 4:45 p.m.)

USDA Calls for Comments on 1979 Flue-Cured Tobacco Program - Secretary of Agriculture Bob Bergland today asked the public to comment by November 13 on the national marketing quota for the 1979 crop of flue-cured tobacco.

Details concerning the program determinations under consideration were published in the Federal Register on September 29. Current legislation requires that the national flue-cured tobacco quota for the 1979-80 marketing year will be announced no later than December 1.

To give all segments of the tobacco industry an opportunity to comment, one or more meetings are expected to be scheduled in October to discuss supply and demand for flue-cured tobacco and other factors relating to quota determinations.

Written comments should be sent to the acting director, price support and loan division, USDA-ASCS, P. O. Box 2415, Washington, D.C. 20013. All comments will be available for public inspection during regular business hours in room 3741 of USDA's South building.

The Appomattox County Volunteer Rescue Squad

What! They Don't Get Overtime?

"Rescue The Perishing, Care For The Dying . . ." Does it sound like revival time? Could be, but the words of that old familiar hymn remind me of something else.

The Appomattox County Volunteer Rescue Squad might very well have these words as the theme or motto for their organization. After all, they do just that, Rescue and Care.

I wonder, just how many residents of Appomattox County would have died had it not been for the quick response by the members of the Rescue Squad? How many times have they literally "cared for the dying"?

It is not enough for squad members to be "Johnny-On-Spot", so to speak. I'll admit, getting there in a hurry is of utmost importance but they must also be "Johnny-Know-What-To-Do" when they arrive on the scene of an accident or an emergency.

"Oh Shucks," you say, "It's no problem for those Rescue Squad members, I've seen them in action. They just seem to 'do what comes naturally.'"

Exactly right! Everything that our Appomattox County Volunteer Rescue Squad members do in the way of services DOES come naturally. It comes naturally ONLY AFTER hours and hours of study and preparation.

"Study?" you may ask . . . "You mean like textbooks?"

Oh, yes! Exactly like textbooks. There is a certain amount of required study and classes that each member must complete . . . and pass! After all, you couldn't very well have a "funkie" saving lives, now could you?

One of the squad members was answering a night call with one of her fellow members. The lady needing help was very disturbed because she felt she was "bothering" the rescue squad.

"I am really sorry about this," she said, "But if I had to bother you I am certainly glad it was at night. You'll get overtime pay, won't you?"

The squad member didn't have the heart to tell the lady that not only did they not get "overtime pay' but no pay at all.

"Hey, wait a minute . . . that's not really true!

"Then they do get pay?" you ask.

If you mean by pay, 'money', then the answer is NO! No member of the Appomattox County Volunteer Rescue Squad receives money for services rendered, but they consider themselves well-paid.

The satisfaction of a job well done; the knowledge that someone received emergency treatment, vital to staying alive, while enroute to the hospital; a life saved, a service rendered. To the dedicated members of the Appomattox County Volunteer Rescue Squad, these things are the "Highest Pay" they can receive for any service rendered.

Dedication?

Getting out of a warm bed . . . when you just got in, that's dedication. Leaving a sizzling steak when you are starving, having no idea when you will be able to eat, that's dedication. Going to a three hour class in the evening for weeks when you had rather watch television, that's dedication. Putting service to others first, no matter how great the personal inconvenience, that's the dedication of the Appomattox County Volunteer Rescue Squad.

Just how long does it take to say "Thank You"? Not long. Would you believe that in some instances the squad members don't even get a verbal "Thank-You"? It has happened.

The best way to say "Thank You" is to give . . . give . . . give.

Equipment costs money, lots of it; gasoline doesn't come cheap and it takes a lot of that too.

"But you just don't understand," you may be saying to yourself. "Everything is so high and what little I could give wouldn't be enough to be of any real help. If I can't give a sizable contribution that would really amount to something, I just won't give."

You are so wrong!

If every resident of the county of Appomattox would make a contribution, regardless of the amount, not only would the squad reach the goal set for this year but the figures would 'go over the top'!

Doesn't it give you a feeling of security to know that trained, dedicated men and women are standing ready day and night, to answer your call for help?

October is Rescue Squad month; they are calling to you . . . Help! Help! Won't you?

"Help Us So That We Can Help You."

Liberty Church Plans Harvest Day Sunday

Liberty Baptist Church will celebrate Harvest Day on Sunday, October 22. Rev. Gene Mims will be the guest speaker for the morning worship hour. Rev. Mims, pastor of Bellwood Baptist Church in Richmond, is a former member of Liberty and is the son of Mr. and Mrs. V. O. Mims of Appomattox. The morning worship service will be followed by a covered dish lunch in the fellowship hall.

At 1:15 there will be a special afternoon worship service which will include the musical "Greater Is He", presented by the church's Sanctuary Choir. Former pastors of Liberty have been invited to speak, also.

The Harvest Day offering goal is $20,000.00. This will be used to retire one-third of the debt the church recently incurred during its building program. The church plans to collect the entire debt over a three-year period, thus saving the church $10,200.00 in interest on the borrowed money.

A high attendance of 513 is expected for this very special day at Liberty Baptist Church. We urge all members, former members, and friends of the church to help celebrate and make this Harvest Day a success.
